

Self Service for Manufacturing Companies

flowit

Since 2007:

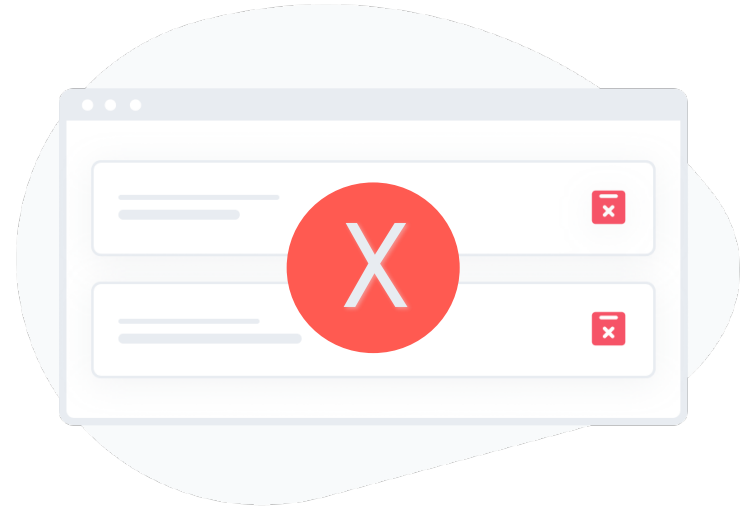

- Digitalization of manufacturing companies
- Rising efficiency through optimization and automation of processes

Helped over 200 companies.

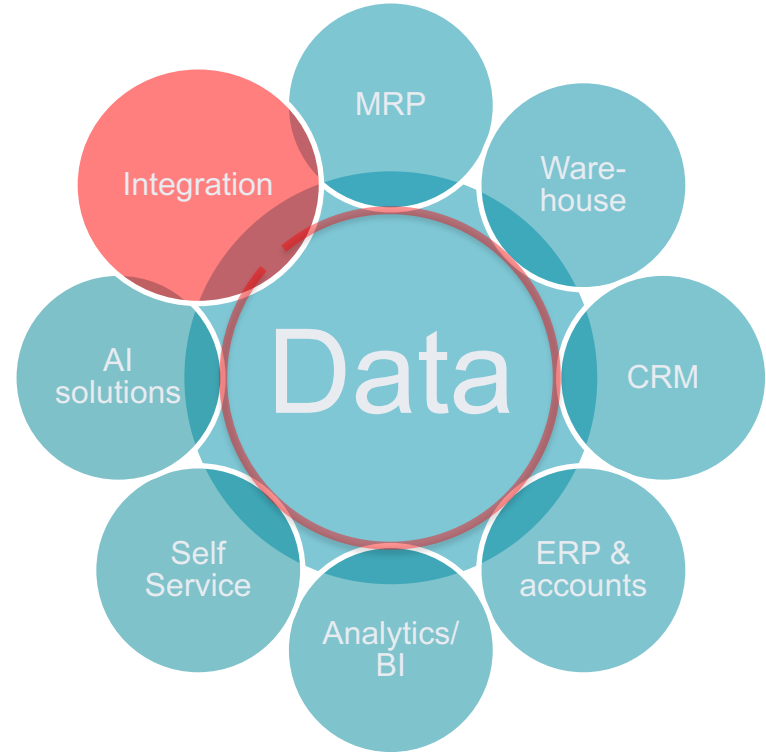

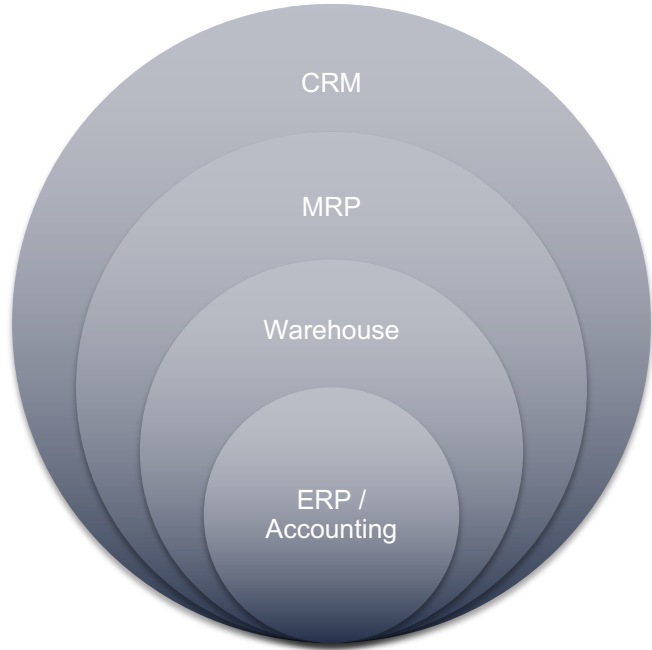

The 3 step process

1. We are too busy to work with efficiency
2. We are cutting costs due to COVID
3. We need „new everything“ & FAST!

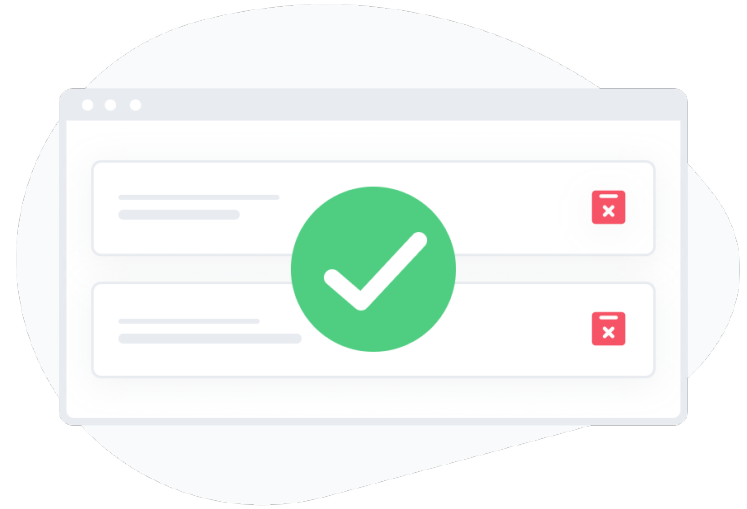

Why the “new everything”?

Fix what you can!

1. Map processes and business needs
2. Develop new (digital) processes
3. Guide towards the data-centric model
4. Enable transparency & data quality
5. Fill the gaps

What are we doing instead?

The COVID-19 gap

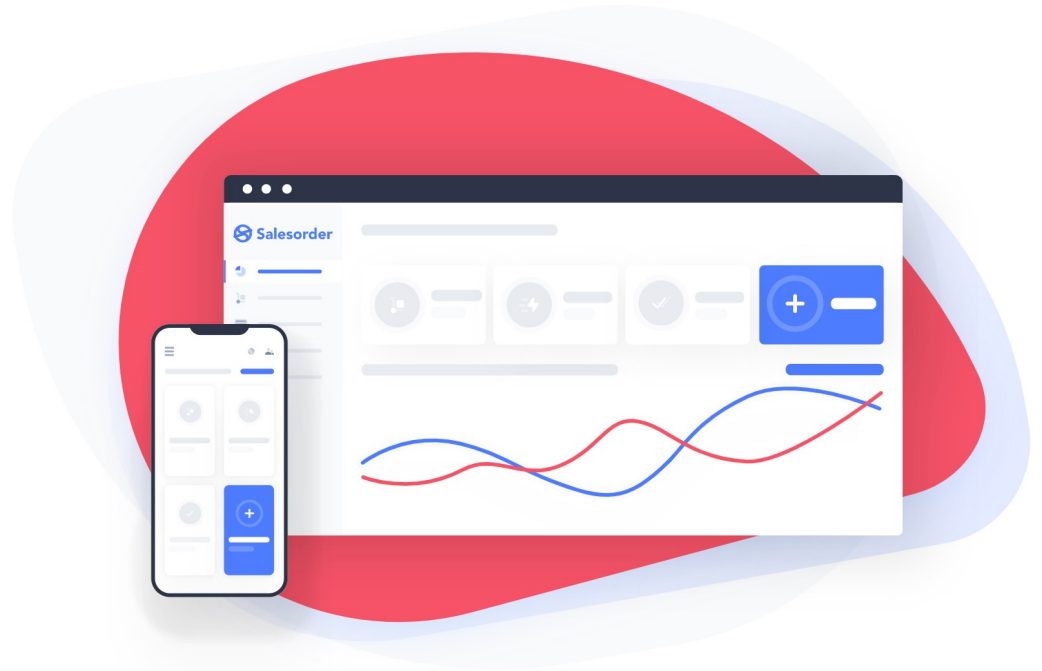

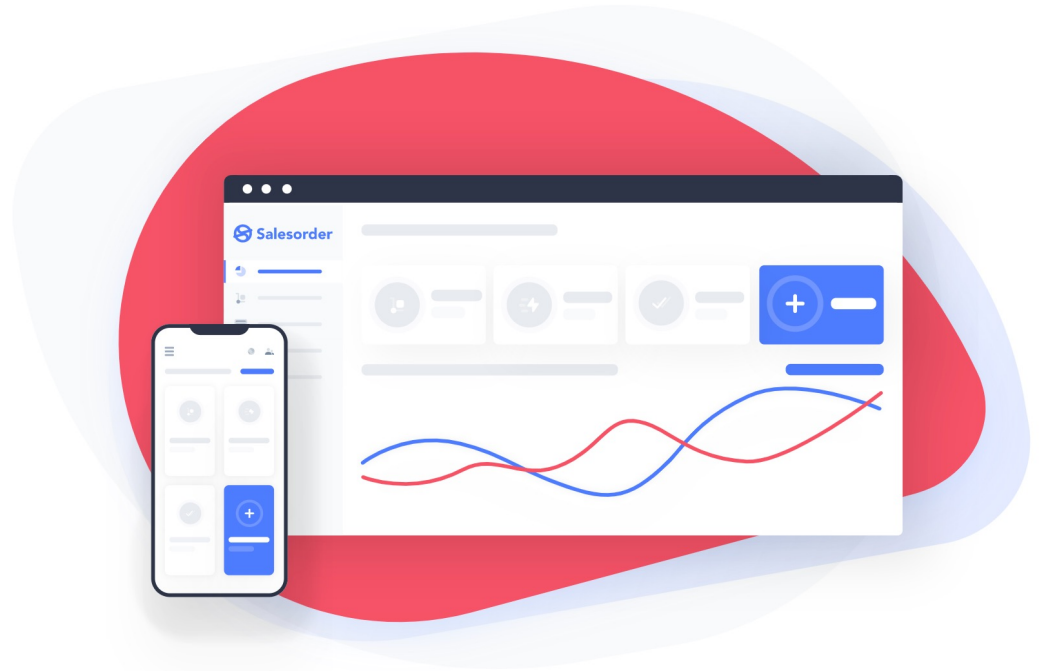

How do you fix irregular working hours?

- 24 hours a day
- 7 days a week
- Don't push, enable

The case for Self Service as a Service

- Cost
- Speed
- 70% prefer
- 80% won't go back

Customer peace of mind

- Easy order and re-order
- Order status, history, invoices
- Complete product information

Whenever

YOUR piece of the pie

- Order processing time slashed
- Product information sharing
- Campaigns and discounts
- Complete transparency
- Analytics & KPI
- Churn management
